

# Vacuum Lift

EUROPIPELINEGROUP

PIPELINE SOLUTIONS

# BASIC DATA

## IDENTIFICATION

|                         | EPE-VL90 | EPE-SVP130 | EPE-SVP250 |
|-------------------------|----------|------------|------------|
| Lifting capacity (tons) | 9        | 13         | 22         |
| Operating weight (kg)   | 1100     | 1800       | 2200       |

## DIMENSIONS

|                                      | EPE-VL90 | EPE-SVP130 | EPE-SVP250 |
|--------------------------------------|----------|------------|------------|
| -A- Overall width (mm)               | 2890     | 2890       | 2890       |
| -B- Overall height (mm)              | 2193     | 2193       | 2315       |
| -C- Height (minus rotating head, mm) | 1245     | 1245       | 1350       |
| -D- Height of rotating head (mm)     | 248      | 248        | 248        |
| -E- Height of yoke attachment (mm)   | 720      | 800        | 800        |
| -F- Depth (mm)                       | 600      | 720        | 720        |

## ENGINE

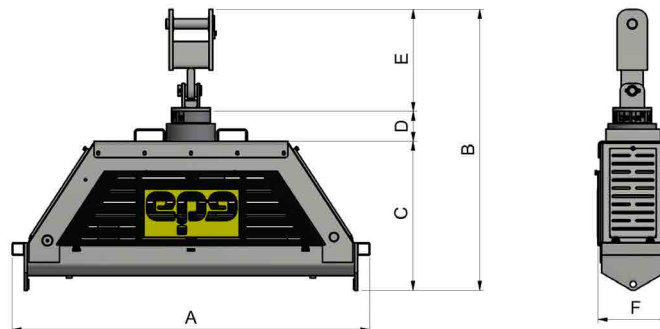

|                               | EPE-VL90 | EPE-SVP130 | EPE-SVP250 |
|-------------------------------|----------|------------|------------|
| Net rated Power ISO 9249 (kW) | 8,8      | 12         | 12         |
| Diesel capacity (L)           | 10       | 30         | 45         |

## VACUUM

|                         | EPE-VL90 | EPE-SVP130 | EPE-SVP250 |
|-------------------------|----------|------------|------------|
| Pump capacity (mcb/h)   | 50       | 100        | 160        |
| Suction pressure (mbar) | 40       | 60         | 60         |

## ROTATOR

|                         | EPE-VL90 | EPE-SVP130 | EPE-SVP250 |
|-------------------------|----------|------------|------------|
| Max torque (Nm)         | 3000     | 3500       | 8400       |
| Max pressure (bar)      | 250      | 320        | 320        |
| Oil flow volume (L/min) | 20       | 20         | 30         |
